# ERIC VERDIN

CV

---

SCIENTIFIC LEADER AT:

## 50 YEARS OF HISTONE ACETYLATION

BARCELONA CONFERENCES ON  
EPIGENETICS AND CANCER

**October, 1<sup>st</sup> and 2<sup>nd</sup>, 2014, Barcelona**

---

**Eric Verdin**, Senior Investigator and Associate Director at Gladstone Institutes, [University of California](http://www.gladstoneinstitutes.org), San Francisco, USA

Dr. Verdin received his MD degree from the University of Liege, Liege, Belgium. He trained as a diabetologist/endocrinologist and held positions at the Joslin Diabetes Center and Harvard Medical School, the University of Brussels, the NIH, and the Picower Institute for Medical Research. He joined the Gladstone Institutes in 1997 and became its Associate Director in 2004. He is also Professor of Medicine, University of California, San Francisco. Dr. Verdin is a Fellow of the American Association for the Advancement of Science, and member of the the American Society of Microbiology, the American Society for Biochemistry and Molecular Biology, the American Society for Clinical Investigation and the American Association of Physicians. He has served as reviewer on study sections for the National Institute of Health, as the organizer of international meetings and as the editor of several books and reviews. He has published more than 180 international papers and is associated with 10 published patents. Dr. Verdin's laboratory studies the role of reversible protein acetylation in aging and focuses on epigenetic regulators including HDACs and sirtuins.
