
TERRY HARTIG

SPEAKER AT:

GREEN CITIES, HEALTHY PEOPLE. PLANNING HEALTHY URBAN SPACES

October, 30th and 31st, 2013, Barcelona

Terry Hartig, Professor at Institute for Housing and Urban Research, [Uppsala University](#), Uppsala, Sweden

Terry Hartig has studied health resource values of natural environments since the early 1980s, with a particular focus on the role of psychological restoration in mediating short- and long-term benefits. He completed graduate training in environmental psychology and social ecology at the University of California, Irvine, and postdoctoral training in social epidemiology at the University of California, Berkeley. He currently works as Professor of Environmental Psychology with the Institute for Housing and Urban Research and the Department of Psychology at Uppsala University in Sweden. He has been a fellow of the Man and Nature Humanities Research Center of Odense University in Denmark, and he has held an Adjunct Professor position with the Norwegian University of Life Sciences, where he participated in a university-wide Nature and Health initiative through affiliations with the Departments of Plant and Environmental Sciences and Landscape Architecture and Spatial Planning. From 2004 through 2008 he led a working group on physical and mental health benefits of nature experiences within COST Action E39, a large networking project funded by the European Science Foundation. Among other outcomes, that project resulted in the book *Forests, Trees and Human Health* (Springer, 2011), of which he was a co-editor.
