
LLUIS ARMENGOL

CV

PARTICIPANT AT:

CONNECTING THE GROWING BRAIN UNDERSTANDING NEUROPAEDIATRIC DISEASES THROUGH SYNAPTIC COMMUNICATION

**November, 26th-27th, 2015, Barcelona****Lluís Armengol**, CSO and CEO, qGenomics, Barcelona, Spain

Lluís Armengol, father of three and happily married. He received his PhD in biochemistry from the University of Barcelona in 2005. He carried out his thesis work between the disappeared IRO and the CRG institutes, actively working in the identification of genetics basis of complex diseases and genomic disorders. He mainly approached those challenges dealing with early genomic technologies and bioinformatics, that he continued to work with in his postdoc period at the CRG. Back in 2008, he moved to the dark side of science and co-founded qGenomics, together with Profs. Estivill and Pérez-Jurado. At qGenomics, we combine basic and applied research in the rare diseases field, with the translation of genomic knowledge into real and usable tools for diagnostic of human diseases. He continues linked to the academia by collaborating in different master degrees from different universities, as well as an associate editor for a couple international journals in the field of medical genomics. He is currently the CSO and CEO at qGenomics.
