
ESTHER JIMENEZ

CV

PARTICIPANT AT:

THE HUMAN MICROBIOME. PRESENT STATUS AND FUTURE PROSPECTS

July, 2nd-3rd, 2015, Barcelona

Esther Jiménez, Researcher at ProbiSearch SL, a spin-off of the Complutense University of Madrid, Madrid, Spain

Assistant lecturer at the Department of Nutrition, Food Science and Food Technology. Faculty of Veterinary Medicine. Complutense University of Madrid. Background in Science and Food Technology (BSc and PhD in Science and Food Technology, Complutense University of Madrid). Her main research areas are the perinatal and human milk microbiota and the characterization of probiotic bacteria and study of their use in bacterial dysbiosis. She works on the influence of maternal microbiota during the prenatal period (pregnancy) and postnatal time (delivery and breastfeeding) in bacterial colonization of the newborn's gut.

B-DEBATE IS AN INITIATIVE OF:
