
HUGH O'BRODOVICH

CV

PARTICIPANT AT:

EXTREMELY PRETERM BABIES. IMPROVING PERINATAL CARE

January, 16th-17th, 2013, Barcelona

Hugh O'Brodovich, chairman of the [Department of Pediatrics at Stanford University School of Medicine](#) and the Adalyn Jay Physician in Chief at Lucile Packard Children's Hospital,

Hugh O'Brodovich, MD FRCP(C) assumed the positions of chair of the Department of Pediatrics at Stanford University School of Medicine and the Adalyn Jay Physician in Chief at Lucile Packard Children's Hospital in 2008. In 2010 he was appointed as the inaugural Director of the Child Health Research Institute at Stanford. His laboratory has conducted research on how the lung's airspaces become fluid filled (mechanisms of pulmonary edema) and how airspace fluid is cleared under both physiologic (fetal lung liquid at birth) and pathophysiologic (pulmonary edema) conditions. His current research involves a population-based study to discover the genetic influences on the development of Bronchopulmonary dysplasia. Dr. O'Brodovich has been the Associate Editor of the American Review of Respiratory Disease, Editor of Pediatric Research, and a member of the editorial board of the American Journal of Physiology and served as a member of the CHRI's Advisory Board of the Institute of Human Development Child and Youth Health. He has published 164 peer reviewed manuscripts and 21 book chapters and holds two patents.
