
JOSÉ LUIS JORCANO

CV

PARTICIPANT AT:

ADVANCED CELLULAR THERAPIES
AND REGENERATIVE MEDICINE. THE
PROMISE IN THE 21ST CENTURY

February, 17th-18th, 2015, Barcelona

José Luis Jorcano, Head of Division at Centro de Investigaciones Energéticas, Medioambientales y Tecnológicas (CIEMAT), Madrid, Spain

José Luis Jorcano, PhD in Physics for the Complutense University of Madrid (1976, cum laude), has been the Chairman of the Epithelial Biomedicine Unit of CIEMAT (1987 to 2011), and has been the Managing Director of the Genome Spain Foundation (since its inception in 2000 to 2009). At present he is Professor of Bioengineering at the Carlos III Institute in Madrid (UC3M) and the Director of the Joint Unit Ciemat-UC3M of Biomedical Engineering. He is Distinguished Fellow and Awarded by the Jovellanos-Havana Institute (in 2011). Silver Medal of Gijón City Hall Awards (in 2012) for his work on Molecular and Cellular Biology. He has developed his scientific career (1976-1987) in prestigious European centers of biomedical research: Max-Planck Institut of Molecular Genetics (Berlin), Max-Planck Institute of Biology (Tübingen) and the German Cancer Research Center (Heidelberg). With 35 years of experience in Molecular and Cellular Biology, and more recently in Tissue Engineering and Gene Therapy. Elected member of the EMBO (European Molecular Biology Organization). He was Pfizer Ltd. and MD Anderson Cancer Research Center, Science Park, University of Texas Scientific Advisor. He is a corresponding member Royal Academy of Sciences of Spain.

B-DEBATE IS AN INITIATIVE OF:
