
ORTRUN MITTELSTEN SCHEID

CV

PARTICIPANT AT:

EVOLUTION OF PLANT PHENOTYPES FROM GENOMES TO TRAITS

March, 17th-18th, 2015, Barcelona

Ortrun Mittelsten Scheid, senior group leader at the Gregor Mendel Institute, Vienna, Austria

Ortrun Mittelsten is a senior group leader at the Gregor Mendel Institute in Vienna, Austria; the institute is part of the Austrian Academy of Sciences. She did her PhD at the University of Hamburg (Germany), and worked at a postdoc at the Max-Planck-Institute of Cell Biology in Ladenburg (Germany), the Federal Institute of Technology in Zürich (Switzerland) and the Friedrich Miescher Institute in Basel (Switzerland). She joined the GMI in 2004. Her group works on epigenetic regulation in plants.

B-DEBATE IS AN INITIATIVE OF:
