PROGRAM

HOTEL MELIÀ SITGES. SITGES (BARCELONA)

Friday, March, 23rd, 2012

PLENARY SESSION II: HPV VACCINES, COST-EFFECTIVENESS SPECIAL GROUPS AND FUTURE RESEARCH

- 9:00** Prophylactic HPV vaccines: Completion of Phase III HPV trials
John Sciller, *National Cancer Institute, National Institute of Health, Bethesda, USA*
- 9:30** HPV vaccine introduction: the first 5 years
Laura Markowitz, *Centers for Disease Control Prevention, Atlanta, USA*
- 10:15** Modeling preventive strategies
Karen Canfell, *Cancer Council NSW, Woolloomool, Australia*
- 10:45** HPV, HIV and immunosuppression
Lynette Denny, *University of Cape Town, South Africa*
- 11:15** Prospects for research. Unanswered questions
Laura Markowitz, *Centers for Disease Control Prevention, Atlanta, USA*

WORKING PARALLEL SESSION 1: CENTRAL-EASTERN EUROPE AND CENTRAL ASIA REPORT

- 13:30** Burden of HPV infections and related diseases
Freddy Bray, *International Agency for Research on Cancer, Lyon, France*
- 14:15** Cervical cancer screening practices and current status of HPV vaccination implementation in Russia, Central Asia, Caucasus regions and western former soviet countries
Svetlana Rogovskaya, *Russian Medical Academy of Postdiploma Education, Moscow, Russia*
- 15:15** Cervical cancer screening practices and current status of HPV vaccination implementation in de Central and European Europe
Mario Poljak, *Lab for Molecular Microbiology and Slovenian HIV/AIDS Center, Slovenia*
- 16:00** Modeling strategies for cervical cancer prevention in EER
Hans Berkhof, *VU University Medical Center, Amsterdam, The Netherlands*
- 16:45** Summary, review and discussion of the session
Chair: Mario Poljak
